

## YOUR RESOURCES CARING FOR CREATION

### 543 Acres of land loved

Thanks to you these areas are safeguarded, nurtured, and preserved, ensuring the protection of diverse ecosystems for future generations to cherish.

### 11 Ongoing Projects

These include engaging youth, communities and churches in forest health surveys, species and water quality monitoring, habitat restoration.

### 20 At Risk Species

We are committed to safeguarding and stewarding endangered species, ensuring their conservation and thriving within their natural habitats.

## STEWARDSHIP HIGHLIGHTS

### 1 Ontario

We placed **33 new nest boxes** for at-risk species on 15 partner properties. This program increases biodiversity and engages local landowners in creation care.

### 2 Manitoba

You helped engage people in hands-on **Conservation on the Boggy River**. This effort included setting up three new forest health monitoring sites and completing an annual river health survey.

### 3 British Columbia

**Shared Waters Alliance** water quality and restoration project connects rightsholders, scientists and decisionmakers. In close partnership with Semiahmoo First Nation, we are studying and restoring Boundary Bay.

## THANK YOU FOR INSPIRING HOPE AND CARING FOR CREATION

**4727**  
Inspired  
Visitors

Creation care resonated deeply with people, inspiring them to engage hands-on work across Canada.

**63**  
Church  
Partners

You are part of churches being equipped to care for creation in their communities.

**12,353**  
Immersed  
learners

With your partnership, children and adults gain valuable knowledge of their place, and how to love it.
