

SEASONALITY CALENDAR

What can you expect when?

This chart is our best estimate though weather, pests, and other events can affect actual production from year to year. **A check mark means** this may be available **anywhere from once to every week of the month**.

We plan to have kale and some type of lettuce available every week. For lettuce, it is sometimes a leaf mix and sometimes heads of different varieties or flavours. We also plan to have **at least two types of fresh herbs available each week and carrots every week once they begin.** *Note: this is our plan at least and there is sometimes a week where we miss these goals due to unforeseen issues with one of our planting successions.*

VEGETABLE/HERB	JUNE	JULY	AUG	SEPT	OCT	STORAGE
ARUGULA	✓	✓		✓	✓	
BASIL		✓	✓	✓

- **LEEKS, ONIONS, POTATOES, WINTER SQUASH:** We're not able to grow these ourselves this year so we'll buy in from another local farm and always let you know when that happens.
- **RUTABAGA:** We'll try to get this on the harvest line before the CSA ends. Otherwise, we'll have it available at the CSA Winter Market in late November.
- **TOMATOES:** Some green tomatoes available in October.
